

# Neovest 5.2 released 5/1/2008

Neovest is pleased to announce its newest product release, Neovest 5.2. This new version adds several new and exciting features including Smart Order Router capabilities via the AlgoGenetics window as well as Portfolio functionality being added into the Neovest Trade Manager window. Neovest 5.2 also adds additional support for Intraday Study Fields via the Neovest Field Server as well as post-trade analytic functionality.

Below is a complete listing of the enhancements and modifications in the Neovest 5.2 release. If you have questions or problems accessing any of the new functionality, please contact your Account Manager. You may also contact Neovest Technical Support at (801) 375-6850 or via e-mail at [support@neovest.com](mailto:support@neovest.com)
