

# Neovest 5.3 released 12/1/2008

Neovest is pleased to announce its newest product release, Neovest 5.3. This new version adds several new and exciting features including Flexible Summary roll-up via the Trade Manager Window as well as compatibility with LiquidNet and ITG Channel dark pools. Neovest 5.3 also adds additional support for rolling up by Sectors and Industry Groups, as well as providing automatic account leveling functionality via Neovest's Allocation & Bunching Window.

Below is a complete listing of the enhancements and modifications in the Neovest 5.3 release. If you have questions or problems accessing any of the new functionality, please contact your Account Manager. You may also contact Neovest Technical Support at (801) 375-6850 or via e-mail at [support@neovest.com](mailto:support@neovest.com)
